# Kary Regragui

*Piano · Composition*

Pianist and composer with more than 20 years of international experience, Kary Regragui combines a deep technical foundation — forged over a decade of study with the French concert pianist Madame Lemoine, First Prize winner in piano and violin at the Paris Conservatory — with an emotional and contemplative sensitivity that defines his style.

Trained for a decade with Madame Lemoine, a French concert pianist and First Prize winner in piano and violin at the Conservatoire de Paris, he developed a strong technical and expressive foundation that now informs his versatility across classical music, new age, jazz, film music, and romantic arrangements in several languages.

Throughout his career, he has been a regular pianist in luxury hotels and resorts, where his warm and intimate style creates memorable atmospheres.

He is also the creator of Musical Portraits — unique, tailor-made compositions that translate each person's story and emotional landscape into original music.

His album Healing Journey explores music as a tool for calm, introspection, and inner connection, reflecting his vision of music as a space of presence and emotional depth.
